- Your actual charges will vary based upon your room and board selections.
- Your Financial Aid awards and amounts can be found on your Financial Aid Award letter.
- **Note:** Do *not* include work-study earnings as an award amount in your estimate, as the student is paid bi-weekly for earnings and these funds cannot be applied to the student account.
- A student account statement from the Business Office will be sent to your permanent address in July for the fall term and in December for the spring term. The statement will include charges and awards and will outline the amount you owe for the term.
