

GUIDELINES FOR FACULTY-STUDENT PROJECTS DURING THE HHMI GRANT PERIOD*

This program funds a range of faculty-student projects not eligible for HHMI funding including but not limited to archival research, research in preparation for honors theses or other significant student projects, conference travel with students for faculty not participating on the conference program, and projects in the studio arts, music and theatre. Projects may involve collaborative faculty-student research, faculty supervised undergraduate research, or intensive projects in the arts, music and theatre. The goal is to accommodate different types of faculty-student projects aimed at improving student learning and strengthening faculty teaching and/or scholarship. Tenured and tenure-track faculty members, full-time coaches, librarians and academic affairs staff with faculty rank may apply. Part-time and visiting faculty may apply with departmental approval. The program pays faculty and student project expenses during the academic year. For up to eight summer weeks, the program pays faculty and student stipends and student housing, project expenses, travel and other items related to the particular project. Faculty-Student Projects funding totals approximately \$50,000. The funds are subject to change due to budget adjustments.
